

# PATRICIA CARR

PERSONAL WEBSITE:  
<https://pcarrhi.github.io>

## BRIEF

My experience in managing all the Communications of a growing company allowed me to understand the importance of KPIs and its influence on decision making.

I transitioned into the Web Development field to challenge myself on learning new languages and gain new technical skills. An enriching experience at Altran helped me understand the importance of team organisation for the project's success.

I hope to utilise my technical & leadership skills to aid companies and their teams produce favorable outcomes to advance in their respective professional projects.

## EDUCATION

**Coding Academy by EPITECH**  
(European Institute of Technology)

Certificate of Completion  
Oct 2019-August 2020
